OECONOMICUM

Architect	INGENHOVEN ARCHITECTS
Client	SCHWARZ-SCHÜTTE
Location	DÜSSELDORF, GERMANY
Year	2018

The building was designed by Ingenhoven Architects in a very stylish and detailed way. The windows are facing south where you can enjoy the panoramic view. The lake and the wooden deck are situated at the southern end of the building as well.

The plan is now to expand Oeconomicum by more than a third on the West side. The existing west facade will be dismantled and from there an additional part will be added. Octatube will be responsible for the realization of the façades and the roof. The challenge for Octatube is to make the new part look exactly the same as the existing building.
